

LAND RIGHTS IN THE BRAZILIAN AMAZON SPEAKER SERIES

COMMUNITY-BASED ECONOMIES

MONDAY OCTOBER 25, 2021 AT 12:00 P.M. PST

Andréia Bavaresco is a Forestry Engineer and holds a Master's Degree in Education and Environmental Management with an emphasis on the design and implementation of ongoing training processes that serve Indigenous peoples and traditional communities in the Amazon. She is coordinator of the Sustainable Value Chains and Territorial and Environmental Management of Protected Areas in the Amazon Program and Technical Coordinator of the International Education Institute of Brazil. She has extensive experience in the preparation and implementation of Territorial and Environmental Management Plans for Indigenous Lands.

Reinaldo Lourival develops and implements conservation planning, monitoring, and sustainable development activities across key watersheds in Brazil as the Brazil Representative at Nature and Culture International (NCI). He is currently coordinating a USAID-funded grant with the Indigenous Council of Roraima, called the Bem Viver project, focused on the promotion of sustainable living and wellbeing of the Indigenous Communities at Raposa Serra do Sol and Wai-Wai Indigenous Land and supports communities to build conservation agreements.
